Claim 10

Your petitioner, António Fernando Melo e Silva claim for he, the exclusiveness of use, of the related process, intituled with the name of "COOL WAVE", which António Fernando Melo e Silva it intends that is susceptible for a utility patent.

The process "COOL WAVE" is based on a system to create new drawings. The system consists in a lot of varied combinations (all the combinations result of the contact between the parts to combine) possibly successive or not, of a geometric figure with its proper image in its original size or proportional sizes, thus resulting a great variety of innovative drawings.

So, I claim all the possible manipulations to get new drawings through this geometric figure (figure 1.1) with its proper image.
